

CUSTOMER SUCCESS STORIES & TESTIMONIALS

LIBERTY
PHYSIOTHERAPY

LIBERTY PHYSIO

LOCAL PHYSIOTHERAPY CLINIC IN SYDNEY

We created a dynamic lead generation website for Liberty Physio that has helped this small physiotherapy clinic reach new business heights. In this increasingly competitive field, they were struggling to fill their bookings. Their initial website was unprofessional and didn't highlight their USPs. Layout, navigation and readability were also issues, as there was too much information that was not being conveyed concisely and cohesively.

After working with the clinic owners closely, we were able to create a website that fulfil all their business and branding needs. More importantly, they no longer required to rely on word-of-mouth and referrals to ensure **their appointment slots are 100% booked out 2 weeks in advance** (within 3 months of website completion).

"Working with the talented D² STUDIO team was amazing. They understood what our problems were as a business and addressed them thoroughly. What we had before versus now, it's night and day! Having worked with many designers in the past, the D² STUDIO team is definitely the way to go if you're looking to grow."

- Kevin Dinh, Co-Founder of Liberty Physio
